

15th xMR-Symposium

“Magnetoresistive Sensors and Magnetic Systems” - 19th and 20th March 2019 in Wetzlar

Lahnau, July 2018. The xMR-Symposium, which takes place in 2019 for the 15th time, has established itself as the leading international platform for presenting the latest technological developments and innovative applications in the field of MagnetoResistive technology and magnetic systems.

Both potential users, wishing to implement this unique magnetic technology in new products, and researchers engaged in this dynamic field, are provided with information about the latest technical advances as well as descriptions of new applications from leading edge users.

You are invited to propose a presentation for the next xMR-Symposium!

Topics may cover new R&D project results as well as new applications with a focus on xMR sensor technology.

Please, send a short abstract not longer than half a page to the organizer.

To hand in your abstract (deadline: **August 31st 2018**) or to receive more information, please contact Dr. Joachim Hölzl.

You will find further information at: www.mr-symposium.com
