

Sensitec
Design Workshop.

Developing
high value solutions
together.

Performance. Sustained.

See. Experience.
Comprehend.

You want to be at the fore front when talking about magnetic sensor technology! Our design workshop gives you the opportunity to inform you and your team comprehensively about individual solution concepts – with the experts from Sensi-tec on board.

The direct dialogue with you enables us to find the right way and the right solution for you – to understand the specific demands correctly – and to secure your technological advantage.

**We develop the optimum product –
for you and your customer.**
